

2026 MEDIA INFORMATION

INTRODUCTION

Silicon Semiconductor China for professionals working with silicon semiconductor materials and devices.

The **Silicon Semiconductor China** media platform is for the engineers, researchers, scientists, and other technical management professionals that are involved throughout the semiconductor design and manufacturing process in China.

Silicon Semiconductor China will also be covering the many industry sectors where semiconductor-led innovation will either continue, or is set, to make a major impact: AI, automotive, health and medical, Industry 5.0, telecoms and mobile, and quantum computing - progress in these sectors is unthinkable without the semiconductor innovations to match.

Moreover, with the accelerated pace of new technology options and news, silicon-semiconductor professionals want to be updated more frequently to maintain their edge in the market, and they want to be able to access information and news at any time in any place. For over 18822 professionals (Sep 2025), **Silicon Semiconductor China**'s WeChat channel provides that access with weekly multiple-article blasts.

Plus, the printed and digital editions of **Silicon Semiconductor China**'s magazine and their sister e-newsletters typically reach over 40869 readers (September 2025). While **Silicon Semiconductor China**'s website attracts over 108698 unique IP visits per month (13-month average, July 2025)

Silicon Semiconductor China's Media Platform Tied to the Popular **CHIP China Conference**

The conference is held annually with the Compound Semiconductor Advanced Technology and Application Conference providing leading edge technology and product information for fab manufacturing, IC packaging, and test. Organized by ACT International, the events provide an excellent means for face-to-face interactions with potential customers through speakers and display tables. Chip China has attracted more than 13000 delegates since inception.

In summary, the media platform **Silicon Semiconductor China** offers multiple options through your advertising, content marketing, and event participation to reach China's semiconductor professionals. Continue reading for more details on how your company can benefit.

General Policy

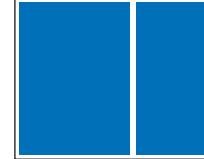

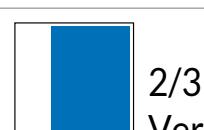

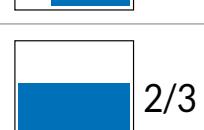

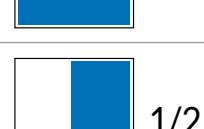

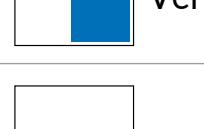

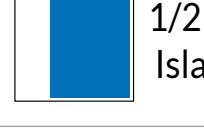

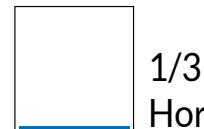

Advertisers and advertising agencies assume liability for all content of advertisements printed and also assume responsibility for any claims arising therefrom made against the publisher. The publisher reserves the right to reject advertising not conforming to publication standards. The publisher reserves the right to place the word "advertisement" with copy, which in the publisher's opinion resembles editorial materials. The publisher is not liable for delays in delivery and/or non-delivery in the event of an Act of God, action by any government or quasi-government entity, fire, flood, insurrection, riot, explosion, embargo, strike, whether legal or illegal, labor or material shortage, transportation, interruption of any kind, work slowdown, or any condition beyond the control of the publisher affecting production or delivery in any manner.

In the event of non-payment, the publisher reserves the right to hold the advertiser and/or agency jointly and severally liable for such monies as are due and payable to the publisher. The publisher will not be bound by any conditions, printed or otherwise, appearing on any insertion order or contract when they conflict with the terms and conditions of this rate card.

Cancellations

No cancellations or changes will be accepted after the "Ad close" date. Notification of cancellations prior to closing date must be in writing.

WeChat

WeChat is China's online social service to chat and share information with friends, read news, play games, track their fitness goals, make voice and video calls, shop online, and even pay for lunch. WeChat is so deeply embedded in people's lives, companies—even technical companies—use WeChat as a way of gaining a foothold in the Chinese market.

SiSC's WeChat channel has already opened the door for you to effectively reach a self-defined audience of SiSC followers on every Tuesday and Thursday* who are interested in receiving the latest technology information from SiS, SiSC, and ChipCHINA.

*In case of holiday, will defer to the following working day.

Within our WeChat environment you can deliver messages to customers

- Promoting tech articles,
- For new product launch information
- Use it as a recruitment tool
- By using banner-like ads as page breaks between articles sent by WeChat, or to
- Set up customized WeChat programs
